In considering past performance of a bidder for the purpose of determining the "lowest responsible qualified bidder" or the "highest scoring bidder in a multiple criteria bid", the commissioner shall evaluate the skill, ability and integrity of the bidder in terms of the bidder's fulfillment of past contract obligations and the bidder's experience or lack of experience in delivering supplies, materials, equipment or contractual services of the size or amount for which bids have been solicited. In determining the lowest responsible qualified bidder for the purposes of this section, the commissioner may give a price preference of up to ten per cent for (A) the purchase of goods made with recycled materials or the purchase of recyclable or remanufactured products if the commissioner determines that such preference would promote recycling or remanufacturing. As used in this subsection, "clean alternative fuel" means natural gas, electricity, hydrogen or propane when used as a motor vehicle fuel; or (D) the purchase of goods or services from a micro business, except that, in the case of a veteran-owned micro business, the commissioner may give a price preference of up to fifteen per cent. All other factors being equal, preference shall be given to supplies, materials and equipment produced, assembled or manufactured in the state and services originating and provided in the state. Except with regard to contracts that may be paid for with United States Department of Transportation funds, if any such bidder refuses to accept, within ten days, a contract awarded to such bidder, such contract may be awarded to the next lowest responsible qualified bidder or the next highest scoring bidder in a multiple criteria bid, whichever is applicable, and so on until such contract is awarded and accepted. Except with regard to contracts that may be paid for with United States Department of Transportation funds, if any such proposer refuses to accept, within ten days, a contract awarded to such proposer, such contract shall be awarded to the next most advantageous proposer, and so on until the contract is awarded and accepted. There shall be a written evaluation made of each bid. This evaluation shall identify the vendors and their respective costs and prices, document the reason why any vendor is deemed to be nonresponsive and recommend a vendor for award. A
